2022 SPONSORSHIP LEVELS AND BENEFITS

2022 SYMPOSIUM SPONSORSHIP OPPORTUNITIES

The American Public Gardens Association works closely with our more than 600 member gardens to gauge emerging trends, upcoming issues and gaps in professional development in the public garden industry. In response, we work with our 21 Professional Development Communities to develop Professional Development Symposia, offered regionally, enabling garden professionals throughout the US and internationally to attend. Topics are focused upon specific segments of the industry and attendees range between 50 and 125 per symposium.

The goals of our symposia are to provide:

1. Peer-to-peer networking, idea-sharing and discussion of issues and challenges of common interest.
2. Targeted educational content for public garden staff, and those working closely with public gardens.
3. Garden and tour experiences that underscore and enrich the symposium theme.

Professional Development Symposia provide a unique opportunity for you to put your business directly in front of a specialized audience of public garden professionals.
